

City of Santa Barbara

HISTORICAL CONSULTANTS LIST

The following alphabetical list has been compiled by the Community Development Department of the City of Santa Barbara to assist applicants in the City's permit process in carrying out Historic Structures and Sites Reports in compliance with the City's Master Environmental Assessment (MEA) document and the California Environmental Quality Act (CEQA). The historical consultants on this list may have the capability to carry out one or all components (i.e., field survey, documentary research, oral history interviews, photo analysis, report writing, mitigation analysis, etc.) of projects. Placement on this list does not imply endorsement or recommendation of these consultants by the City of Santa Barbara. It is the responsibility of the applicant to contract for services which will fulfill the City's Historic Structures and Sites Report requirements as specified in the MEA. Costs for any reports are not determined by the City of Santa Barbara but are to be negotiated by the consulting historian and the contracting applicant. Historical consultants not listed below may be qualified on a case by case basis by the City's Urban Historian. To be considered for qualification, please send a corporate vita or statement of qualifications, which describes the academic credentials and work experience of all principal investigators to the City's Urban Historian at PO Box 1990, Santa Barbara, CA 93102. A complete list of requirements for qualification is enumerated in Appendix 'G' of the MEA.

SHELLEY BOOKSPAN, Ph.D.
